

**How would you like to spend six weeks
working with world class researchers in
the field of regenerative medicine?**

***The Center of Excellence Research
Internship can make it happen!***

In a research and educational partnership between the Children's Hospital of Philadelphia, Fox Chase Cancer Center, Haverford College, Lincoln University, and the Institute for Regenerative Medicine at the University of Pennsylvania internship opportunities are now available in the labs of:

Klaus Kaestner, Ph.D. M.D., University of Pennsylvania
Functional Genomics Analysis of β -Cell Proliferation

Jake Kushner, M.D., Children's Hospital of Philadelphia
Signaling Regulation of Pancreatic β -Cell Endo-Duplication

Michael Rickels, M.D., M.S., University of Pennsylvania
Hormonal Control of Pancreatic β -Cell Mass

Doris Stoffers, M.D., Ph.D. University of Pennsylvania
Hormonal Control of Pancreatic β -Cell Replication and Survival

Kenneth Zaret, Ph.D., Fox Chase Cancer Center
Regulation of Pancreatic Islet Growth and Survival by Endothelial Signals

**To apply or to request more information
(including stipend details) please contact:**

The Institute for Regenerative Medicine
University of Pennsylvania
Phone: 215-898-4450 *E-Mail:* IRMed@pobox.upenn.edu

This Center of Excellence Research Internship opportunity has been made possible by the receipt of tobacco settlement funds at the University of Pennsylvania. More information can be found at the Pennsylvania Department of Health's Website for health research grants program at www.health.state.pa.us/cure.
